JEMKIRK L. UTANA

Web Developer - Next.js, React, Supabase, PHP/MySQL

Philippines | jemkirku0907@gmail.com | GitHub: jemkirku0907 | LinkedIn: jemkirk-utana-825892420

PROFESSIONAL SUMMARY

Intern/developer focused on practical web systems across frontend, backend, databases, and deployment. Experienced with portfolio and academic systems, AI-assisted applications, dashboards, and product-focused interfaces.

TECHNICAL SKILLS

Frontend	Next.js, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Backend & Data	PHP, MySQL, PostgreSQL, Supabase, Node.js, Express, REST APIs
AI & Tools	Gemini API, Anthropic API, Codex, Git, GitHub, Vercel, Netlify
Design	Figma, Canva, Adobe Photoshop, Adobe Illustrator, visual layout

EXPERIENCE

Officium Inc. / Marajo Group - Web Developer Intern

2026 - Present

- Work on real-world web features across Next.js, Supabase, Vercel, booking flows, dashboards, and integrations.
- Support practical frontend and backend tasks while keeping company project details preview-only for privacy.

SELECTED PROJECTS

Marajo Group - Real estate company website migration and web system work using Next.js, Supabase, Tailwind CSS, and Vercel.

PharSayo - Medication management PWA with AI-assisted scanning, role-based access, adherence tracking, and dashboards.

Suri.AI - AI-powered fact-checking platform built for InterCICSkwela using Next.js, Node.js, Express, and Anthropic API.

QUACC - Community and childcare center system with admin, staff, guardian workflows, uploads, hashing, and OTP verification.

Assignify - Assignment management web app for organizing schoolwork, routines, and project deadlines.

BasuCash - Cash flow and recycling-value tracking project for simple transaction and expense monitoring.

CERTIFICATIONS

- NC III Graphic Design - TESDA, May 2025
- Batang Techno Hackathon - Participant, Batangas State University, March 2026
- InfoTechnOlympics 2025 Web Design Category - Participant
- AI Tech 2.0 - Participant

ADDITIONAL BACKGROUND

Based in the Philippines. Interested in building useful, maintainable systems with strong user-facing design and clear product purpose.
