JEMKIRK L. UTANA

Web Developer - Next.js, React, Supabase, PHP/MySQL

Philippines | jemkirku0907@gmail.com | GitHub: jemkirku0907 | LinkedIn: jemkirk-utana-825892420

PROFESSIONAL SUMMARY

Intern/developer focused on practical web systems across frontend, backend, databases, and deployment. Currently gaining real-world development experience with Officium Inc. / Marajo Group while building portfolio projects around AI, healthcare, productivity, finance tracking, and community systems.

TECHNICAL SKILLS

Frontend	Next.js, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Backend & Data	PHP, MySQL, PostgreSQL, Supabase, Node.js, Express, REST APIs
AI & Tools	Gemini API, Anthropic API, Codex, Git, GitHub, Vercel, Netlify
Design	Figma, Canva, Adobe Photoshop, Adobe Illustrator, visual layout

EXPERIENCE

Officium Inc. / Marajo Group - Web Developer Intern

2026 - Present

- Contribute to real-world web development work for Officium Inc. and Marajo Group in a general, non-confidential capacity.

- Work across Next.js, Supabase, Vercel, Tailwind CSS, dashboards, booking flows, and frontend/backend implementation tasks.

- Support UI updates, responsive layouts, deployment checks, and practical feature improvements while keeping company details private.

NC III Graphic Design - TESDA Certification

Issued May 2025

- Completed NC III Graphic Design certification covering layout, visual design, presentation, and design production skills.

- Applies visual design foundation to clearer web interfaces, project previews, and user-facing portfolio work.

SELECTED PROJECTS

Marajo Group - Real estate web system work using Next.js, Supabase, Tailwind CSS, and Vercel.

PharSayo - Medication management PWA with AI-assisted scanning, role-based access, adherence tracking, and dashboards.

Suri.AI - AI-powered fact-checking platform for InterCICSkwela using Next.js, Node.js, Express, and Anthropic API.

QUACC - Community and childcare center system with admin, staff, guardian workflows, uploads, hashing, and OTP verification.

Assignify - Assignment management web app for schoolwork, routines, and project deadlines.

BasuCash - Cash flow and recycling-value tracking project for transaction and expense monitoring.

CERTIFICATIONS

- NC III Graphic Design - TESDA, May 2025

- Batang Techno Hackathon - Participant, Batangas State University, March 2026

- InfoTechnOlympics 2025 Web Design Category - Participant

- AI Tech 2.0 - Participant

ADDITIONAL BACKGROUND

Based in the Philippines. Interested in building useful, maintainable systems with strong user-facing design, clear product purpose, and practical implementation quality.
